

Missouri Weekly Agricultural Market Prices and Trends

AGRICULTURAL MARKET PRICES BULLETIN

Edited by Dr. Eleazar Gonzalez

This weekly bulletin aims to provide market prices and trends of main Missouri agricultural products and help Missouri stakeholders, including farmers, ranchers, and consumers, make informed decisions when marketing and finding prices for farm products. Agricultural products include two categories: Animal-origin products and plant-origin products. Prices indicate the average weekly value of each product. The bulletin offers prices for selected crops and livestock products. The publication reports beef-livestock market prices paid at live auctions in five regions of Missouri (Southwest, Northeast, Central Region, Southeast, and Northwest). In addition, other livestock market prices, such as sheep, goats, pork, whole milk, and eggs, are also reported. All information and discussion in this bulletin are the responsibility of the authors. If you want more information on the previous publication, visit our [Facebook location](#).

MISSOURI CROP MARKETS

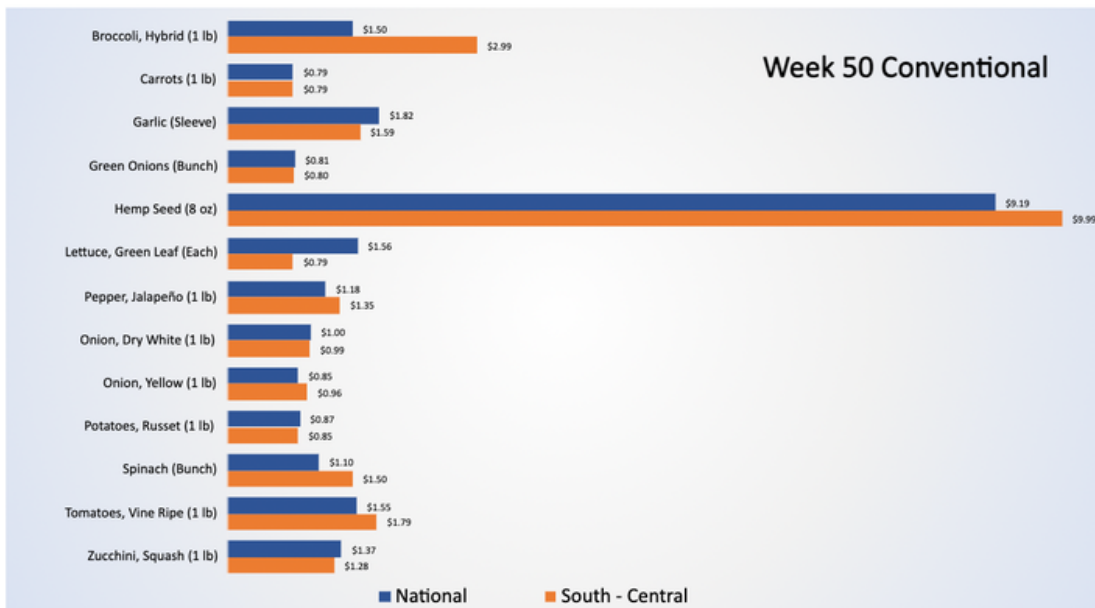

The bulletin shows market prices of selected crops that consumers demand all year round. The publication compares weekly specialty and horticultural produce prices from conventional and organic production systems, as shown in Table 1 below. Organic production systems offer a high-value market for products when comparing both weeks. Prices of conventionally grown products led to a lower value market; however, product price volatility was observed in different product trends in both production systems. Market price reports vary weekly; if the price indicates zero, no price was reported that week.

Table 1: Conventional Specialty Crops Prices

Conventional Crop Price/lb	NATIONAL			SOUTH - CENTRAL		
	Week 50	Week 49	%Change	Week 50	Week 49	%Change
Broccoli, Hybrid (1 lb)	\$1.50	\$1.24	20.97%	\$2.99

MISSOURI LIVESTOCK MARKETS

Market prices for livestock in Missouri are reported from the National Beef Wire database and USDA sources. Beef prices at live auctions report medium and large weight Classes. Steers and heifers with 599 pounds or less are medium-weight classes, and steers and heifers with 600 pounds or more are large-weight classes.
